Gear Up Career Days

Getting involved is the right thing to do when it comes to our youth and helping them make choices for a positive future. L-3 Communications, Communication Systems-West (CS-West) is currently engaged in a search for talented and enthusiastic youth who are willing to go the extra mile to receive high marks in the fields of math, science, and manufacturing to ensure a solid career path. Education is the key to this type of success and we encourage our youth to take advantage of the many opportunities available to help them achieve important goals. We are proud to be a co-sponsor of this year's Gear Up Career Days and look forward to helping Jr/Sr High School students see the many merits of a career in manufacturing. Whether they choose to become engineers, technicians, machinists, or assemblers, they can be assured that UT and CS-West will have many exciting and creative jobs in these fields for years to come.
