June 26, 2008

To whom it may concern:

The Career and Technical Education Department at the Utah State Office of Education supports the Gear UP Career Days event happening on September 30-October 1, 2008. This is a great way to introduce CTE students to the manufacturing world and the host of career opportunities found there. CTE has many high school pathways that can prepare students for entry level opportunities. This Gear Up Career Days event will help many students understand the opportunities that are available for them.

We want to express our support for this event. We also want to thank all those who have made Gear Up possible. We appreciate the effort that these industries are taking to share this message with our students.

Again we sincerely thank you for your support.

Melvin Lee Robinson

Technology and Engineering Education Specialist
